April 2023 - July 2023 Valenciennes, France

- Web developer intern at Vallourec Developing a web application using Django for reporting purposes
- Focus on creating a user-friendly interface for data visualization and analysis
- Active participation in an agile work environment Regularly involved in sprint reviews, daily, and weekly meetings Responsible for deploying the web app on Azure
- Utilizing Azure's cloud infrastructure and services to ensure scalability, security, and high availability of the application
- Gaining experience in full-stack web development, agile methodologies, and cloud deployment
- Contributing to Vallourec's technological advancements.

### Volunteer - Cloud Nord Event - France

- Facilitated Venue Preparation: Assisted in preparing partner spaces and event room setup.
- Room Arrangement: Ensured the proper arrangement and organization of event rooms.
- Participant Reception: Welcomed and provided assistance to event participants upon arrival.
- Participant Guidance: Guided participants to their designated rooms, ensuring a smooth experience.
- Talk Transition Management: Oversaw the seamless transition between talks, including assisting speakers with setup and managing inter-conf\* display.

## Academic Qualifications

September 2020 - July 2023 Lille, France

University of Lille, France Bachelor of Computer Science

Relevant Coursework: OOP, Complexity and data structures, web Development,(Javascript), Database, Functional programming (Haskell).

## Certifications:

Edx: Data Science: Visualization - HarvardX (January 2024)

## Languages:

- French: Advanced
- English: Advanced

## Interests:

- hiking
- reading books
- leetcode
